MEMORANDUM

TO: All County Applicants

FROM: Kurt Naccarato, IDL HFT Program Manager *KN*

DATE: June 15, 2010

SUBJECT: 2011 IDL WSFM WUI Grant Applications

Please be advised that the 2011 Western State Fire Managers Wildland Urban Interface HFT grant applications are now out and available on the web at the Idaho Department of Lands public page www.idl.idaho.gov. There you will find the application, instructions, and criteria. Being that the WSFM grants can be used on private land anywhere in the county, please combine all projects into one application.

There have been a few changes made for 2011:

- The *Criteria and Instructions* have been edited to clarify what is requested/required in each box.
- The application is now four pages.
- A *Landscape Scale* description box has been added to describe the landscape your project influences. Please see Box 9 on the *Criteria and Instructions* for further direction.

In the *Criteria and Instructions*, please pay close attention to the bottom half of page 2, *Grant Considerations*. A county's application has to reach a score of **11** to have any hope of being funded. The competition between all 17 western states has reached a level where only the top priorities, nothing below an 11, will be considered. Be very explicit and **concise** in your application narrative, as all fields are locked, and the allotted space for text cannot be increased or modified. Should you have any questions, please contact me.

Please return **electronically** by close of business August 13, 2011 to:
sschedler@idl.idaho.gov.
